

REMARKS

This amendment is supplemental to the previous amendment filed November 24, 2009. Applicant respectfully submits that no new matter is added by the present amendment. The November 24 amendment was fully responsive to the previous August 25 Office Action and, therefore, the remarks included in the November 23 amendment will not be repeated in this reply.

This supplemental amendment hereby amends claim 25 to include additional features that are not taught or suggested by the references cited in the previous August 25 Office Action. Thus, for at least the reasons stated in the Remarks of the November 25 amendment and also because of the features added in the present amendment, Applicant submits that claim 25 is patentable over the references cited in the previous August 25 Office Action. New independent claims 38 and 45 include similar features as claim 25. Thus, Applicant submits that independent claims 25, 38 and 45 and all claims depending thereon are patentable over the references cited in the previous August 25 Office Action.
